Swiss Quality

Medi-Caries Detector

Medi Caries Detector, is an excellent caries disclosing agent. Is applied directly to the teeth being treated. Healthy tissue is unaffected, while the infected dentin takes on the color of the dye.

Indications for use:

Disclosing Caries Dentin In All Cavity Preparations

Properties:

- It will precisely identify residual caries.
- Fast and easy to use
- Stains only non-reminerizable carious dentin
- Prevent unnecessary pulpal intrusion and minimize tooth structure removal.
- Will not stain healthy tooth structure.
- Helps clinicians to preserve healthy tissue

Packaging:

2058-B Medi Caries(Blue) 6ml , 10 Microbrush

2058-R Medi Caries (Red) 6ml , 10 Microbrush
